

# Examination for Discovery Worksheet

Go through the worksheet organizing your questions by topic. (e.g. What I need to know about: value of home. Questions could include: Did you have the family home at 15th Ave in Vancouver assessed? When did this assessment take place? Who conducted it? What did the assessment say about the value of the home? ) Note: if there is a document you don't have, request it so it's on the record in the discovery. Bring this document to the Discovery and write quick notes in the Response area.

## What I need to know:
